## PETITION INFORMATION

Application #: 22CZ04 Submittal Date: 2/1/22

3) Zoning district supplemental standards. The proposed Conditional Zoning (CZ) District use's compliance with Sec 4.4 *Supplemental Standards*, if applicable.

The proposed development and recombination is for single family detached residences and complies with all the applicable Supplemental Standards noted in Section 4.4.

4) *Design minimizes adverse impact.* The design of the proposed Conditional Zoning (CZ) District use's minimization of adverse effects, including visual impact of the proposed use on adjacent lands; and avoidance of significant adverse impacts on surrounding lands regarding trash, traffic, service delivery, parking and loading, odors, noise, glare, and vibration and not create a nuisance.

The project does not create any adverse impact on adjacent lands for the following reasons. We are proposing a recombination of the site to move lot lines around without adding additional lots. The result will be that the second lot, which is currently vacant, will be adjusted such that a residence can be built with greater setbacks to adjacent properties and more opportunity to preserve existing features, vegetation, etc.

5) *Design minimizes environmental impact.* The proposed Conditional Zoning District use's minimization of environmental impacts and protection from significant deterioration of water and air resources, wildlife habitat, scenic resources, and other natural resources.

The proposed zoning district allows for construction of single family residential units while protecting environmental resources. No stream, riparian buffer, or wetland impacts are proposed, and the second residence will be constructed in such a way to preserve a significant portion of the existing vegetation on the site.

6) *Impact on public facilities.* The proposed Conditional Zoning (CZ) District use's avoidance of having adverse impacts on public facilities and services, including roads, potable water and wastewater facilities, parks, schools, police, fire and EMS facilities.

The proposed zoning district creates minimal impact on public facilities and services. Two new single family residences will be connected to the public water and gravity sewer infrastructure. There are currently two existing lots on record here, and we are not proposing any new lots at this time. Therefore we believe impact to parks, schools, and emergency services are negligible.

7) *Health, safety, and welfare.* The proposed Conditional Zoning (CZ) District use's effect on the health, safety, or welfare of the residents of the Town or its ETJ.

The proposed zoning district does not create adverse effects on the health, safety, and welfare of the residents of the Town. There are currently two lots recorded in this area, and our intent is to retain two lots and connect to Town services in a manner consistent with existing development in this area.

**PETITION INFORMATION**

Application #: 22CZ04 Submittal Date: 2/1/22

8) *Detrimental to adjacent properties.* Whether the proposed Conditional Zoning (CZ) District use is substantially detrimental to adjacent properties.

We do not believe the proposed zoning district is detrimental to adjacent properties. Development as an RR-CZ district allows for orderly construction of the second residence while maintaining significant existing vegetation, buffers, setbacks, and other screening from adjacent property using the existing tree cover.

9) *Not constitute nuisance or hazard.* Whether the proposed Conditional Zoning (CZ) District use constitutes a nuisance or hazard due to traffic impact or noise, or because of the number of persons who will be using the Conditional Zoning (CZ) District use.

The proposed zoning district does not create a nuisance due to noise or other impacts. Since there are two lots on record and we are not creating any additional lots, traffic and noise levels should remain consistent with current levels associated to the property.

10) *Other relevant standards of this Ordinance.* Whether the proposed Conditional Zoning (CZ) District use complies with all standards imposed on it by all other applicable provisions of this Ordinance for use, layout, and general development characteristics.

We believe that the intent and standards of the Ordinance are met by using the RR-CZ zoning district in this location. Development of the lots meets the applicable provisions of the ordinance for layout, Town services, environmental considerations, etc.

Please summarize the questions/comments and your responses from the Neighborhood Meeting or emails/phone calls received in the spaces below (attach additional sheets, if necessary). Please state if/how the project has been modified in response to any concerns. The response should not be "Noted" or "No Response". There has to be documentation of what consideration the neighbor's concern was given and justification for why no change was deemed warranted.

**Question/Concern #1:**

From Scott Sutton-will location of sewer block him from extending Town sewer to his property in the future

**Applicant's Response:**

No, it would not. Gravity sewer can be extended up the existing stream to the Sutton property and connect into the manhole at Castleberry Estates. We would be willing to connect the applicant with Sutton to discuss. Mr. Sutton was not ready to do anything with sewer currently.

**Question/Concern #2:**

From Mr. Sutton: Do we know where house on Lot 2 would go?

**Applicant's Response:**

We are not entirely sure at the moment, but we suspect the house on Lot 2 would have a similar front setback as the existing house so they sit roughly at the same depth from Wimberly.
